Wholesale Plant Price List

F. LAGOMARSINO & SONS
SEEDSMEN

712 "J" Street

Sacramento, California

Business Conditions

TERMS: Net Cash. Payments are due the first of the month following the date of purchase to houses of approved credit.

ROUTING SHIPMENTS — Railroad, Express or Truck routes given by buyers, which should be on each order, will be strictly followed by us where possible. In all cases where the route is left to our judgment we will select the best we know, but entirely at the risk of the buyer. We assuming no responsibility for delays in transportation.

All plants are delivered to the Carriers in First Class condition and we are not responsible for damages to plants in transit. **Our responsibility ceases with a clear receipt from the transportation company.**

Please use on every order the following words as routing instructions: "Freight," "Express," "Truck," or "Mail." Avoid the use of words "Send" or "Ship."

Prices are f. o. b. Sacramento. No charge for packing.

ORDERS BY PHONE

When orders for plants and roots are ordered by phone it will greatly facilitate the filling of your orders if plants and roots are ordered direct from our nurseries.

Nursery Phone Main 5424

NON-WARRANTED—We do not warrant in any way, expressed or implied, the contents, or the description, purity, productiveness, or any other matter, of any seeds, bulbs or plants, sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on the above terms, no sale is made hereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

Perennial Flower Plants

IN POTS

The following flower plants are grown in 3-inch and 4-inch pots. The plants are grown in clay pots and when shipment is made the plants are transferred to Neponset paper pots.

This makes an ideal way of shipping these potted plants. The plants are shipped in "flats" or boxes 13½ inches wide and 19 inches long. One of these flats holds 30 3-inch potted plants and 18 4-inch potted plants. The flats when filled with either the 3- or 4-inch pots weigh 27 to 30 pounds each. All plants offered in 3- and 4-inch pots are well established with a strong root system and will bloom the first season.

Please specify when ordering 3-inch pots, if we can fill with the 4-inch, or vice versa, in case we happen to be out of the particular size ordered.

All plants are grown at our Nurseries in East Sacramento.

AQUILEGIA or COLUMBINE—

BIRD'S EYE VIEW OF OUR NURSERIES AND TRIAL GROUNDS

Our trial grounds comprise nearly forty acres of highly cultivated land, and are under the personal management of a member of our firm who has had over 35 years experience in this line of work.

Our trial grounds are maintained for the purpose of growing our own stock seeds, and, also, for carrying on our important breeding and selection work. Here we also carry on trials covering the specialties we offer our customers, as well as trials covering seeds from various parts of the world, in order to observe their qualities before any important variety is offered to our customers.

Peco Planting Pots

The Peco planting pots are made of North German Imported Peat Moss. These pots serve a very good purpose when plants such as tomatoes, peppers, egg-plants, cucumbers, etc., are wanted for early planting in the open.

The young seedlings can be transplanted into these pots and when the plants are well established can be set out in the open field without disturbing the roots of the plants in any way. The roots of the plants grow through the moss pots without any check. The pots can also be fertilized by soaking them in a liquid solution of manure or other fertilizer, thereby hastening their growth.
